HIGH-END WHOLE HOUSE CUSTOMIZATION

Care & Maintenance Guide

Basic maintenance guidance for custom cabinets, furniture, hardware and high-end interior finishes.

Founded 2005	Foshan factory-direct	North America & Europe	24-hour response
--------------	-----------------------	------------------------	------------------

Daily Care Principles

Use soft cloths, neutral cleaners and dry wiping. Avoid long-term water exposure, harsh chemicals, abrasive pads and direct heat on finished surfaces.

Surface	Recommended Care	Avoid
Lacquer / Painted Panels	Wipe gently with soft damp cloth, then dry immediately	Alcohol, strong solvent, hard scrubbing
Wood Veneer	Dust regularly; keep indoor humidity stable	Standing water, direct sunlight, high heat
Melamine / Laminate	Clean with mild soap solution and dry cloth	Sharp blades, heavy impact, steam cleaning
Stone / Sintered Stone	Use pH-neutral cleaner; wipe spills quickly	Strong acids, staining liquids left overnight
Metal / Aluminum	Use soft cloth and mild detergent	Abrasive powder, acidic cleaner

Cabinet Hardware

Hinges, slides and handles should be kept free of dust and excessive moisture. If a door becomes misaligned after long-term use, adjust hinge screws carefully instead of forcing the panel.

Item	Check Frequency	Action
Hinges	Every 6 months	Check alignment and tighten loose screws
Drawer Slides	Every 6 months	Clean track dust; avoid overloading drawers
Handles	Every 3-6 months	Tighten if loose; clean with soft cloth

LED Lighting	As needed	Keep dry; contact support for replacement guidance
--------------	-----------	--

Kitchen And Bathroom Notes

Ventilation matters. In kitchens and bathrooms, wipe condensation quickly and keep cabinets away from long-standing moisture. Water damage is usually caused by leaks, trapped condensation or repeated soaking at panel edges.

Area	Maintenance Focus
Sink Cabinet	Inspect plumbing and dry cabinet base after spills
Cooking Area	Clean grease with neutral cleaner; avoid high heat near panels
Bathroom Vanity	Wipe water from countertop seams and cabinet edges
Laundry / Balcony Cabinet	Check drainage and maintain ventilation

After-Sales Support

For maintenance questions, contact Avrelahome by email at xiaozhen@ruojufanxing.com or WhatsApp +86 183 3969 5822. Please include order information, photos, room location and a short description of the issue.
